September 2024 business health view before EXCO

Hi Sarah,

Can you give me a simple business health view for September 2024? I want it practical, not a perfect model.

Please show customer activity, active accounts, loan repayment pressure, channel movement and the top customer pain points. Use the bank data we already have. If the number is draft, mark it as draft.

The board question is simple: are we growing safely, are customers struggling, and where is the bank creating avoidable work?

I have heard repayment issues may be up, but I do not want us to work from corridor numbers. Please use the source files and tell me what is actually happening.

Thanks,
Kabelo
