### February 2022 who needs a call before the next debit run

---

Hi,

Collections does not want to phone everyone who missed a debit. That creates noise and makes customers angry.

Please rank customers for the next debit run using recent NSF, balance recovery, hardship flag, complaint history and whether the customer usually fixes the account within a few days.

Failure rate for February 2022 is 6.6%, so we need a priority list rather than a full dialler dump.

Also give us a small group where a SMS or app message is enough. Service tone matters here.

Nomsa
