Prepare view - correspondent banking alert for Gulf Meridian Bank

Hi team,

Please prepare a view on the correspondent-banking issue mentioned in the press this week.

The external note mentions Nyawokhulu Inc, Nyawokhulu Inc and Gxabhashe PLC. Do not assume guilt from the article. I want us ready before Compliance, Legal and Payments ask for evidence.

Please check whether we have:

- MT103 payments involving Kavango Trade Clearing LLC or Gulf Meridian Bank
- beneficiary amendments or sender-to-receiver notes on the SWIFT messages
- nostro breaks or delayed confirmations around those payments
- any linked customer-account activity that supports or weakens a correspondent_routing_anomaly concern

The useful output is a prepared exception pack, not a final accusation.

Regards,
Nandi
