October 2020 who needs a call before the next debit run

Hi,

Collections does not want to phone everyone who missed a debit. That creates noise and makes customers angry.

Please rank customers for the next debit run using recent NSF, balance recovery, hardship flag, complaint history and whether the customer usually fixes the account within a few days.

People are saying missed debits are higher than usual for October 2020, so we need a priority list rather than a full dialler dump.

Also give us a small group where a phone note or in-app service message is enough. Service tone matters here.
