April 2022 loan book questions from product

Hi team,

Loan Products needs help understanding the Home Loan book for April 2022.

The question is not only who failed to pay. We need to know whether the pressure is coming from affordability, debit day timing, repricing, branch-captured mandates or a real product issue.

Can you prepare a Power BI page showing first missed debit, repeat missed debit, balances before collection, province, origination month and current account activity?

Please do not treat every failure as bad behaviour. Some customers look like they paid late or were affected by processing delays.

Regards,
Mandla
