KB 201910 product usage view

Hi Emma,

We are looking at wallet and remittance prompts again. Before we make campaign decisions, can we see who is actually using digital channels and who is still mostly branch, ATM or card?

I am not sure if this sits with Product or Operations, but we need channel mix, transaction types, customers with failed journeys, customers who may be under fee pressure, and segments that should not be targeted.

Could you make a customer list? It does not need to be beautiful yet. I just need something we can argue with.

Thanks,
Farah
