### Debit order failure rate 6.7% - 2020-01 loan repayments

---

Hi team,

Our daily collections extract for loan-linked debit orders shows a failure rate of **6.7%** for January 2020 (2,759 payment rows in the mart).

Breakdown highlights:

- Insufficient funds: 55 postings
- Bank timeout: 43 postings

This is above our 5.5% internal trigger. Can Payments Ops confirm whether NAEDO retries are clearing on T+2 and whether any sponsor bank latency was logged?

@Analytics – please drop the vintage view (2019 vs 2021 originations) into the shared notebook before Thursday's stand-up.

Regards,
