Debit order failure rate 6.5% - 2022-10 loan repayments

Hi team,

Our daily collections extract for loan-linked debit orders shows a failure rate of **6.5%** for October 2022 (7,765 payment rows in the mart).

Breakdown highlights:

- Insufficient funds: 159 postings
- Bank timeout: 118 postings

This is above our 5.5% internal trigger. Can Payments Ops confirm whether NAEDO retries are clearing on T+2 and whether any sponsor bank latency was logged?

@Analytics – please drop the vintage view (2019 vs 2021 originations) into the shared notebook before Thursday's stand-up.

Regards,
Collections & Recoveries
