Data quality - 5.0% of loan payments flagged in 2023-04

Team,

Reconciliation on the loan payment feed shows **5.0%** of rows with has data error=true (duplicate IDs, truncated descriptions, timestamp shifts).

Before we publish the management collections pack, we need:

1. Exception report by data error types
2. Sign-off that regulatory returns exclude corrupt keys

This is blocking the monthly MI pack.

Regards,
Retail Analytics
