RE: Insufficient funds trend - 151 NSF cases in loan payments

Collections,

Noted 151 insufficient-funds returns on loan repayment debits this month. Overall failure rate is 6.0%, which is within tolerance, but NSF is concentrated on **Home Loan** mandates.

We are seeing higher incidence on collection day ≥ 25 (salary-cycle effect). Recommend holding proactive SMS for T-1 where behaviour score < 620 .

Thanks,
Payments Operations
